Dear Sirs,

Reference: **Nonprofit Corporation**
Approval Process

I am interested in starting a nonprofit corporation in the State of Texas for the purpose of maintaining the equality of civil rights among all citizens of the United States to ensure their political, educational, social, and economic opportunities are upheld according to each individual's ability and the rule of law.

In summary, the proposed nonprofit will help White Americans like:

- LULAC does for the Hispanic population;
- the NAACP does for Blacks or African Americans;
- the NAAAP does for Asian Americans;
- the NCAI and many other-related organizations do for Native Americans and Alaska Natives; and,
- the NHOA, including the numerous NHO organizations, and the NHPI do for Native Hawaiians and Other Pacific Islanders.

An Introduction which explains the formation of the nonprofit together with a Mission Statement, Vision Statement, its Primary Objectives, and the Aims and Purposes has already been prepared.

But, due to the sensitivity of race-related subject matter and how the proposed nonprofit will most probably be scrutinized by the various advocacy groups, would you please tell me what approvals are required before I proceed with actually forming the corporation? For your convenience, your reply may be sent to my Email address specified in the heading of this letter.

In closing, thank you in advance for your help with the above.

Respectfully yours,

Marvin Jones
